

FIRE FIGHTING VESSEL

ARES 25 FIFI

Length Overall	26.50 m
Beam	6.80 m
Hull Draught	1.15 m
Max. Speed	35 Knots
Main Propulsion System	3 x Diesel Engines & Waterjets
Construction Material	Marine Grade Aluminum
Classification	Turkish Lloyd or IACS
Design By	BMT

ARES 25 FIFI, the world's fastest fire-fighting vessel, is a well-proven design which is capable of fast intervention to fire incidents at sea such as oil & gas platforms, passenger cruise ships and inside & outside harbor incidents. As for construction material and classification rules the craft is very durable in terms of self-fire resistance. Furthermore, it is relatively light and much faster compared to its class worldwide. The vessel has 2 fire monitors for incident response with a total capacity of 2400m³/h.
