

FIRE FIGHTING VESSEL

ARES 20 FiFi

Length Overall	19.00 m
Beam	4.80 m
Hull Draught	1.00 m
Max. Speed	40 Knots
Main Propulsion System	2 x Diesel Engines & Waterjets
Construction Material	Marine Grade Aluminum
Classification	IACS
Design By	BMT

ARES 20 FiFi Fire Fighting Vessel is specially designed and equipped for maritime fire-fighting, incident response, search and rescue operations. As for construction material and classification rules the craft is very durable in terms of self-fire resistance. Furthermore, it is relatively light and much faster compared to its class worldwide. The vessel has 2 fire monitors for incident response with a total capacity of 600m³/h.
