ARES 25 FiFi, the world's fastest fire-fighting vessel, is a well-proven design which is capable of fast intervention to fire incidents at sea such as oil & gas platforms, passenger cruise ships and inside & outside harbor incidents. As for construction material and classification rules the craft is very durable in terms of self fire resistance. Furthermore, it is relatively light and much faster compared to its class worldwide. The vessel has 2 fire monitors for incident response with a total capacity of 2400m³/h.
