ARES 32 PREDATOR provides very high speed capabilities with outstanding seakeeping characteristics conformant to tough environmental conditions, contrary to the conventional vessels in the market. Along with its Active Homing Missile System, the craft is highly capable of naval warfare especially "hit and run" missions with its very low RCS and infrared signature. The craft is equipped with an autostabilized remote-controlled naval weapon system to provide versatile firepower that can be adapted to a wide variety of potential scenarios. The vessel has a suite of naval communications equipment, combat management system, electro-optic (E/O) sensors, X-Band and 2D Naval Radars. The vessel can launch and recover a RHIB for boarding and SAR missions.
