

FIRE FIGHTING VESSEL

ARES 35 FiFi

Length Overall	34.90 m
Beam	8.00 m
Hull Draught	1.60 m
Max. Speed	30 Knots
Main Propulsion System	3 x Diesel Engines & Waterjets
Construction Material	Marine Grade Aluminum
Classification	IACS
Design By	BMT

ARES 35 FiFi, the world's fastest fire-fighting vessel, is a well-proven design which is capable of fast intervention to fire incidents at sea such as oil & gas platforms, passenger cruise ships and inside & outside harbor incidents. As for construction material and classification rules the craft is very durable in terms of self-fire resistance. Furthermore, it is relatively light and much faster compared to its class worldwide. The vessel has 6 fire monitors for incident response with a total capacity of 4800m³/h.
