

EMERGENCY SUPPORT & FAST PATIENT TRANSFER CRAFT

ARES 58 AMBULANCE

Length Overall	18.00 m
Beam	5.00 m
Hull Draught	1.00 m
Max. Speed	45+ Knots
Main Propulsion System	2 x Diesel Engines & Waterjets
Construction Material	Advanced Composites or Marine Grade Aluminum
Classification	IACS

ARES 58 AMBULANCE is inspired from an innovative hull design of fast patrol craft. Iterative elaboration has been applied to the underwater body, resulting in low resistance and good seakeeping hull form, combined with excellent navigation capabilities. ARES 58 AMBULANCE has been designed for rapid ambulance response, patient and casualty transfer operations, incident response and SAR operations, with 4-paramedic and 4-patient capacity.
