

FAST ATTACK CRAFT

ARES 70 FREYJA

Length Overall	70.80 m
Beam	9.80 m
Hull Draught	2.30 m
Max. Speed	50+ Knots
Main Propulsion System	3 x Gas Turbines 2 x Propulsion Diesels 3 x Waterjets
Construction Material	Steel Hull & Aluminum Superstructure
Classification	IACS
Design By	Rolls-Royce

ARES 70 FREYJA Fast Attack Craft, designed and engineered by Rolls-Royce is a capable platform providing very high speed above 50 knots with outstanding seakeeping characteristics conformant to tough environmental conditions, contrary to the conventional vessels in the market. Along with its Guided-Missile and Air Defense Systems, the craft is highly capable of naval warfare with its low RCS and infrared signature. The craft is equipped with a naval cannon and auto-stabilized remote-controlled naval weapon systems to provide versatile firepower that can be adapted to a wide variety of potential scenarios. The vessel has a suite of naval communications equipment, combat management system, electro-optic (E/O) sensors and 3D Naval Radar.
