

SPECIAL OPERATIONS SUPPORT &amp; FAST ATTACK CRAFT

# ARES 80 SAT

|                        |                                 |
|------------------------|---------------------------------|
| Length Overall         | 24.10 m                         |
| Beam                   | 5.50 m                          |
| Hull Draught           | 1.20 m                          |
| Max. Speed             | 45 Knots                        |
| Main Propulsion System | 2 x Diesel Engines & Waterjets  |
| Construction Material  | Marine Grade Aluminum & Sealium |
| Classification         | IACS                            |

ARES 80 SAT Special Operations Support and Fast Attack Craft is designed and engineered for Special Forces insertion and extraction, as well as fast attack, surveillance and patrolling missions. The craft is equipped with an auto-stabilized remote-controlled naval weapon system to provide versatile firepower that can be adapted to a wide variety of potential scenarios. The vessel has a suite of naval communications equipment, electro-optic (E/O) sensors and X-Band Naval Radar. It is equipped with a RHIB boat for multi mission capability such as boarding and interception.
