

FAST LANDING CRAFT

ARES CAIMEN 200 FLC

Length Overall	76.10 m
Beam	12.95 m
Hull Draught	2.25 m
Max. Speed	20 Knots
Main Propulsion System	2 x Diesel Engines & Fixed Pitch Propellers
Construction Material	Steel
Classification	IACS
Design By	BMT

ARES CAIMEN 200 FLC Fast Landing Craft has an innovative and proven design for a fast, high capacity, highly flexible landing craft which is currently under production for the United States Army. Almost twice as fast as traditional landing craft, ARES CAIMEN 200 FLC marks a step-change in landing craft design, technology, performance and capability. The craft is required for a major amphibious assault in difficult conditions, humanitarian aid or disaster relief. And it has been designed to provide a low-cost and low-risk way of achieving a higher rate of logistics flow with the same number of platforms.
