The smallest member of the HERCULES series, ARES 75 HERCULES is also the fastest, with its current water jet propulsion system giving it a 38+ knot speed capability. With a small revision to the main propulsion system configuration the boat is capable of achieving 50+ knots. The boat has exceptional agility and its seakeeping characteristics allow it to undertake open sea operations on a variety of military, security and rescue duties. A single 12.7mm machine gun is mounted on the foredeck, controlled remotely from the wheelhouse. The vessel is equipped with an electro-optic system that provides day & night surveillance capability.
